Hello Kristen!

Thanks for your email and voicemail messages. Thanks for the updates about the development of the wells and what you are finding.

I looked to see if Bob and I would be available on the 17th and it looks like we will be able to make something work. I would like to confirm with him though since I have not spoken to him in a few days. I will get back to you probably on Thursday, the 12th.

Sherry

Good Afternoon Sherry,

REI began developing several wells today (6 done so far). Most of these wells showed free product or sheen in the purge water.

The wells in the parking area (shallow and 25ft) both showed sheen in the purge water. The

shallow well closest to the tank basin showed film-measurable floating free product. The 40' well closest to the apple tree showed sheen.

We would like to schedule an update call with you and Bob for November 17th. We are available in the afternoon between 12 and 4 pm.

Kristen Hanson
